### NOTICE OF ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach the specific formula which is recited in claim 1 used to forecast a business volume and workforce requirements. Specifically, Landvater (US Patent Number 6,609,101) teaches a method of forecasting business volume and workforce requirements with the aid of a computer system but does not teach or suggest the concept of resource leveling nor does it teach a specific formula which is used to forecast business volume. Tsushima (US Patent Number 4,852,001) teaches that the step of calculating workforce requirements entails resource level but does not teach a formula or algorithm for resource leveling. Heese (US Patent Number 5,274,571) teaches a specific number of steps which constitute resource leveling but does not teach the following formula which is used in performing the resource leveling steps nor does Heese teach a formula that is used to calculate a valley's rank in a method for forecasting business volume and workforce requirements:

$(D/W)*C$  wherein

D is the valley's depth,

W is the valley's width, and

C is the valley's rounding cost.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
